

DIPLOMATIC CRISIS APPEARS IN ORIENT

Refusal of Germany to Act With
Other Powers Regarding
Macedonia the Cause.

LONDON, Feb. 14.—What is practically the break-up of the European concert on the Macedonian question has come as a shock to the chancelleries of the Continent and England, particularly as a quiet diplomatic season had been anticipated. The assent of Germany to the management of Moroccan affairs by France, the conclusion of agreements to maintain the status quo in the Mediterranean and the opening of negotiations looking to treaties that should accomplish a similar purpose with regard to the North sea seemed to make the possibility of difficulties arising among the powers remote.

The conference of the ambassadors at Constantinople also appeared to be going smoothly, when a bomb was thrown

To Cure La Grippe In Three Days

Mix a half-ounce of Virgin Oil of Pine with two ounces of glycerine and a half-pint of good whisky. Shake well and use in teaspoonful doses every four hours. It is claimed this formula will strengthen weak lungs, heat the bronchial tubes, check a cold quickly, and cure any cough that is curable. It will break up an ordinary case of "the grip" in three days. Being free from opiates or drugs it is far preferable for use to the ordinary cough mixture. In preparing this formula five ounces of tincture of Cinchona compound can be used in place of the whisky, with the same effect.

into camp by the announcement made by Baron Marschall von Bieberstein, the German ambassador, that Germany would no longer act with the other powers in directing that Turkey consent to their demands. As to the cloud that has arisen between Russia and Austria-Hungary over the projects for railroad extensions in Macedonia of the latter state, the right of Austria-Hungary to secure a concession for the Novopazar railroad line and the justice of Germany supporting her ally are recognized in England, but it is contended that the

The necessary ingredients can be secured at small cost from any good drug store, and easily prepared in your own home. The Virgin Oil of Pine is put up for dispensing only in 4-oz. vials, each being securely sealed in a round wooden case. Rank imitations of Virgin Oil of Pine have been put out to resemble it in name and style of package. These are essentially ineffective, and often cause nausea. Be sure to get the genuine—look for the name—Virgin Oil of Pine compound pure, guaranteed under the Food and Drugs Act, June 20, 1906. present time is inopportune for the raising of this point. It is now said that the official breaking up of all these international understandings will aggravate the Macedonian question, reopen the whole near-East problem, start a contest for railroad concessions which may lead to serious results and enable Turkey to postpone the reforms for which the ambassadors have been working.

UNCLE OF CARLOS IS VISITOR IN FRISCO

SAN FRANCISCO, Feb. 14.—Bishop Da Silva, a distinguished prelate of the Roman Catholic church and uncle of the late King Carlos of Portugal, who was recently assassinated, arrived today on the Kororua from Honolulu, where he has been for some weeks past studying the condition of the Portuguese residents in that island group.

Bishop Da Silva was deeply moved when speaking of the death of his nephew, which he characterized as "a terrible thing." He does not regard the murder of Carlos as indicative of the feeling of the people, but rather as the act of fanatics.

WILL BRING BODY OF FERGUSON TO CAPITAL

WASHINGTON, Feb. 14.—The body of Arthur W. Ferguson, late executive secretary of the Philippine government, was shipped on the transport Sherman, which sailed from Manila today for San Francisco, and will be brought to Washington for interment. By direct instructions from the President, the funeral of Mr. Ferguson will be made an official affair and marked by the honors usually paid a deserving public official. If it can be done, the interment will take place at Arlington National cemetery.

The remodeling of the building in no way interferes with the store's business. Indeed, trade was never better at this season of the year. It is a little early for spring goods. We are, therefore, pushing heavier merchandise, reducing stocks preparatory to the removal of certain departments, all of which mean lowered prices. Never were goods sold on such close margins as at this particular time.
